

ISO magnetic card reader of identification
for printer and multifunction copier fitted with a
COPICODE-IP

CARTADIS TCMAG1

Counting of copies
and printings
per user

Identifying one's
firm card on
printer and MFC

- The **Cartadis TCMAG1** is used together with a COPICODE-IP and a centralised solution for copy and printing management. It enables every user to be identified by just passing his card through the reader. It enables printings to be released to a printer or a multifunction copier (featuring the Follow-me option) and get copies made on multifunction copiers.
- The **Cartadis TCMAG1** is a magnetic card reader running with cards already used in the firm for access control, time control, firm restaurant, etc ... It enables every user copy and printing to be counted.
- The cards must feature a magnetic track and encoded with the ISO 1 - 2 - 3 standard.
- **CARTADIS** also has a contactless card reader (TCM2) featuring the Mifare and HID standards and a bar code reader (TCBK01), having both the same functions as the **Cartadis TCMAG1** ones.

Technical characteristics
